Foreign Minister Captured

Von Ribbentrop
Gives up Easily.
But Had Can of
Poison on Body

By Daniel De Luce

FIELD MARSHAL MONTGOMERY'S HEADQUARTERS, Germany, June 15.—(P)—Nazi Foreign Minister Joachim Von Ribbentrop was captured yesterday as he slept nude in a Hamburg boarding house, bringing to a close the most intensive manhunt in Europe since V-E Day.

Von Ribbentrop, understood to be wanted by the governments of at least 10 nations to stand trial for war crimes, was the last top-ranking Nazi known to be alive who had eluded capture. A metal can of poison was found strapped to his body, but he surrendered this voluntarily.

The dandified former champagne salesman who became the engineer of Hitler's arrogant foreign policy, had been hiding in Hamburg since April 30. The man who had imposed his diplomatic will on Europe had not a friend in all of Germany's second largest city who would assist him actively in obtaining a place of refuge.

Von Ribbentrop volunteered the information that he had intended to hide until British feeling about him died down, and then attempt

MONTGOMERY'S HEADQUARTERS, Germany, June 15.—(P)—Joachim Von Ribbentrop shared a Hamburg apartment with a pretty 35-year-old brunette divorcee and claimed to his captors he was on a "mission from the dead Fuehrer" when captured, it was disclosed officially tonight after the former German foreign minister was captured naked.

to save his life in a trial. He went to a wine merchant friend, he said—a man who had known him 25 years. The merchant shunned him. Von Ribbentrop, using the name of "Riese," got lodging with an unsuspecting landlady.

Kept Arrest Secret
The same wine merchant was brought to British Intelligence headquarters late yesterday and there pointed out his erstwhile friend. But identification was made even more certain.

By keeping the arrest secret overnight, British sleuths who had trailed Von Ribbentrop across much of western Germany managed to arrest his sister. Today in a tearful and hysterical scene she identified the foreign minister.

Ribbentrop first had been traced to an area of northern Germany near the Danish frontier, where he was known to have passed in disguise. The story, as released today, did not bare what had happened to him between the time he left Berlin and the time he arrived in Hamburg, nor was anything disclosed of what he might know about Hitler's death or survival.

No Interviewers
Ribbentrop was taken under guard in an RAF transport plane from Luebnburg airfield at 12:30 p. m. to be interrogated by supreme headquarters authorities. Correspondents will not be allowed to interview him.

"I wanted to stay in hiding in Hamburg until British opinion was less hostile, and then intended to surrender for a fair trial which would spare my life," he was quoted.

Found on Ribbentrop were three letters, addressed respectively to Field Marshal Montgomery, British Foreign Secretary Anthony Eden and to Prime Minister "Wincent Churchill."

Ribbentrop was aroused from his sleep and admitted his identity. Voluntarily he produced the container of suicide poison which had been strapped to his body.

Extremely Passive
He was described by his captors, Lt. J. B. Adam of Paisley, England, Sgt. Maj. R. C. Holloway of London and Sgt. J. S. Gibbons of Lancashire, as "extremely passive and not a bit truculent."

Hitler's foreign minister, who had a meteoric rise from the role of obscure wine merchant to that of engineer of the Fuehrer's pre-war diplomacy, was believed to have been the man who influenced the German leader to risk the wrath of Britain and France in 1939.

Architect of the anti-comintern pact, Ribbentrop reached the peak of his power when the Nazi armies marched into Russia in 1941. Two years before he had signed Germany's non-aggression pact with Soviet Russia.

BULLETIN

LONDON, June 15.—(P)—Maj. Clement R. Attlee disclosed today that the Big Three meeting will take place in Berlin.

Attlee, former deputy prime minister and present leader of the labor opposition, made the disclosure in a letter to Churchill accepting the prime minister's invitation to attend the "prospective conference in Berlin."

Cole Camp Woman Hurt In Fall From Tractor

Mrs. George Brosch, of Cole Camp, was injured about 11:00 o'clock Thursday night while riding on a tractor, returning from the field to their home. Mrs. Brosch was standing on the drawbar, slipped and fell, her right leg going between the tractor and the drawbar. She received a fracture of the leg and was brought to Bothwell hospital.

Will Ilgenfritz Vice Chairman Ration Board

Names Roy Snyder
To Head the
Price Panel

Little has occurred today in the "battle of the Ration Board" other than William M. Ilgenfritz, former chairman of the price panel, officially accepted the appointment as vice chairman of the board in which capacity he has been acting since last Tuesday when the resignation of Roy Snyder, chairman, was officially accepted. Mr. Ilgenfritz officially announced the appointment of Snyder to chairmanship of the price panel, taking over the position which Mr. Ilgenfritz had held since the time Mr. Snyder was made chairman of the board last fall.

Mr. Ilgenfritz is vice chairman at the present time and there is no chairman of the local board as Mr. J. G. Callaway, district director, is in Dallas, Texas, regional office of the OPA and has not had an opportunity to appoint a chairman.

Mr. Ilgenfritz in talking to a newspaper reporter this afternoon, said he was giving the following statement, as was requested of him by the reporter last Wednesday evening. At that time Ilgenfritz said that he desired to have a little time to think the matter over. The statement is as follows:

Ilgenfritz Statement
"I have accepted the vice chairmanship of the Pettis County Rationing and Price Board, and as such am in charge of the Pettis county office. I am going to do my best to see that regulations are carried out to the letter. I anticipate the thorough cooperation from all members of the board.

"This office has always stood high in the district and I shall endeavor to maintain the service that we have given hitherto.

"As is the case with everyone who undertakes a new job, I have much to learn, but I am going to give this job the best I have."

Continuing he said, "I contacted Mr. J. N. Ham, district board executive Thursday while in Kansas City on other business and assured him that I would take the job of vice chairman and give it my best.

Snyder Price Chairman
"I have appointed Roy Snyder as chairman of the Price Panel. He had about the best record in this district when on it before and I have every confidence that he will do a splendid job in this position."

"I have foremost in my mind, the Pettis County Rationing and Price Board in Sedalia, and to give an efficient service to the people in Pettis county.

"I shall do my utmost to see that everybody is given every possible consideration. This applies not only to the office and board personnel, but primarily to the people of Pettis county. In this endeavor I shall appreciate all the cooperation that the personnel of this office and the people of Pettis county will give me."

In closing Mr. Ilgenfritz said, "I am not concerned with anything that has occurred in this office before I took over the vice chairmanship. I believe that we have a very efficient paid personnel in the office and I believe the various boards are not only trying to do a good job, but are doing it."

New Tire Clerk
Mr. Ilgenfritz was queried about a rumor circulating about the city regarding the status of Miss Thelma Young, who recently resigned as chief clerk, that she might be returned to the price panel as it's clerk. He said, "I never heard that mentioned before, until you just now asked me that question."

"Today Mr. Rose and I decided to place Miss Jo Ann Connelly as the tire panel clerk and she assumed the position. Miss Con-

Small Nations May Rally Veto Strength

By John M. Hightower
Associated Press Diplomatic
News Editor

SAN FRANCISCO, June 15.—(P)—Several small nations resentful of big power leadership may rally enough United Nations conference votes today to force revision of the projected world security charter in 5 to 10 years.

A late afternoon showdown on this issue, which stems from the new-ending fight over the veto, appears certain, with preliminary signs indicating a close battle.

Behind the scenes the small nations are saying they are not sure the veto voting formula will work. It would give the big-five full control of security council action, and any one of them could block an action it did not like.

Want Right To Quit
If five years or more of experience show it unworkable, they contend they want to change it. If they can possibly arrange it they do not want any one of the big nations to be able to veto the change. If they can't have these things, they say they want the right to pull out—a right which could be used as a club against the big powers.

The big five admit that possibly the charter may have to be amended some day. But they argue that no time limit should be fixed. A limit, they contend, might compel calling a conference on charter revision just when the league is meeting its severest test.

The conference leadership is shooting for a settlement of these and related issues this week. A full schedule of both open committee meetings and closed committee sessions has been set up for the next few days.

Mistreatment In Borneo

By James Hutchison

BRUNEI BAY, Borneo, June 15.—(P)—The presence on Borneo of 120 mistreated, emaciated Europeans, Australians and Americans, who worked at forced labor in the Brunei vicinity until a month ago, was reported today by Sumatrans who escaped from the Japanese.

An educated young Sumatran who said he was one of 7,000 in the Indies and brought here for forced labor, said all 120 of the 120 white prisoners were from Singapore except three American fliers who crashed nearby last January.

The Sumatrans said the whereabouts of the group was not known to him now as they were taken away by the Japanese soon after the Australians made their landing on Tarakan island on the opposite side of North Borneo.

Twenty Die in Crash
VICKSBURG, Miss., June 15.—(P)—Seventeen naval personnel, including two Waves, were killed and a navy lieutenant was seriously injured yesterday when a big transport plane exploded and crashed in a wooded area 16 miles northeast of here.

At Least 17 Die in Wreck

WILLIAMSPORT, Pa., June 15.—(P)—At least 17 persons were killed and 32 injured early today when the 34th car of a freight train jumped the tracks and fell on adjoining tracks of an onrushing Washington-Buffalo passenger train, Pennsylvania Railroad officials said.

More than 200 persons were shaken up when the locomotive and the first six cars of the passenger train were derailed at Milton. Many of the passengers were trapped in the wreckage, where they remained until freed by railroad crews. Officials said 21 cars of the freight also left the track.

Acetylene torches were being used to cut into the passenger coaches and extricate bodies. Officials said it would be at least several hours before all the dead were released and "maybe longer before they are identified."

The wreck occurred shortly after 1 a. m. Officials said the freight train had stopped at Milton a few minutes earlier and was moving at a low rate of speed while the passenger train's speed was estimated at its usual running rate—55 miles an hour.

AMSTERDAM, N. Y., June 15.—(P)—Eight members of a New York Central railroad section gang were killed today when struck by the Chicago-to-New York water level Limited just east of the station here.

Kansans Want Their Own Meat

SALINA, Kas., June 15.—(P)—Asserting the meat situation "demands drastic action," Mayor J. H. Moore of Salina today asked Gov. Andrew Schoepel "to assert our state rights" and order Kansas packing plants "to take care of Kansas needs."

If necessary, he said in a telegram to the governor, "Take over these plants and run them until these senseless quota restrictions are relinquished."

"We have in Kansas believe that state inspection is as good as government inspection," Moore said. "This whole territory is practically without meat of any sort as the big federally inspected packers are sending very little, if any, meat here."

"We have plenty of Kansas hogs and cattle and Kansas packing plants, so why can't they be used to feed Kansas people? We are shipping many hundreds of both cattle and hogs from this territory each week to the big river market and none of it comes back while we do without."

"We have a big wheat harvest coming on and harvest workers need some meat, and people who produce this meat are entitled to eat some of it."

"Congressman Frank Carlson is in town today and he thinks the situation demands drastic action and is thoroughly in accord with our efforts."

Ike's Mother Switched Name Deliberately

ABILENE, Kas., June 15.—(P)—Because she disliked nicknames Mrs. Ida Eisenhower, mother of the general of the armies, simply reversed his baptismal record from "David Dwight" to "Dwight David" Eisenhower — and then had to listen to his friends call him Ike.

Milton S. Eisenhower, president of Kansas State college and brother of the five-star general, said the massive family bible recorded Ike's name as "David Dwight Eisenhower."

"But it didn't take mother long to realize that her baby son could and inevitably would, have his first name shortened to 'Dave,' said brother Milton.

So she began calling the baby general-to-be by his second name — Dwight.

Two "Ikes"
That lasted only until neighborhood boys and grownups here started calling him "Little Ike" to distinguish him from an older brother, Edgar, who was known as "Big Ike."

It was the contraction of Edgar's name to Ed and another brother's name from Arthur to Art that inspired Mrs. Eisenhower to try to forestall the cognomen of Dave for the son who was to lead the Allied armies in the Second World War.

A mixup at West Point switched the names of another famous American general — Ulysses S. Grant, commander of the Union forces in the Civil war. His real name was Hiram Ulysses Grant. But Dwight D. Eisenhower's names were switched deliberately and to no avail. The "Ike" has stuck to him through peace and war.

Soil of America Bred in Truman

KANSAS CITY, Kas., June 15.—(P)—Mayor Edward J. Kelly of Chicago says he believes President Roosevelt's "crowning achievement as a politician" was his choice of Harry S. Truman for vice president.

"In just two months," Kelly told a Jefferson Day dinner last night, "Harry S. Truman has proven to the American people, Democrat and Republican alike, that he has the soil of America bred in him."

The Chicagoan said that to be effective public servants "politicians can and must be progressive and conscientious."

Slash Industrial Sugar Allotments
WASHINGTON, June 15.—(P)—Cuts in industrial sugar allotments to a level generally 37 1/2 per cent under a year ago were ordered today for the July-September quarter.

The slash, made by OPA to bring use in line with scarce supplies, trims the new commercial quotas by from 23 to 8 per cent below the current April-June ration.

If Japan Wants Destruction, That's What She Will Get

By Richard O'Malley
GUAM, June 15.—(P)—The "complete and utter destruction of Japan in air attacks that will reach the rate of 2,000,000 tons of bombs a year by July 1 was promised today by Gen. H. H. Arnold, commander of U. S. army air forces.

"If that is what Japan wants, by God, that is what she is going to get," Arnold solemnly vowed at an unusual press conference.

"It is going to be a terrible place to live in."

"It is necessary to destroy five key cities — Tokyo, Nagoya, Yokohama, Kobe and Osaka," Arnold stated.

Incendiaries Released by Instruments

520 Superforts
Fought Weather
In Osaka Raid

By Leif Erickson
GUAM, June 15.—(P)—A force of 520 Superforts fought weather — so thick it broke up their formations — half way to Japan and back again today to unload 3,000 tons of incendiaries in what they hoped would be a knockout blow to Osaka, Japan's greatest industrial city, and neighboring Amagasaki.

Bombardiers released their incendiaries by instruments. Clouds were so thick they blotted out any view of the targets and resulting fires, which Tokyo admitted were started at "a number of points."

The weather was typical of what can be expected for the next several weeks in raids on Nippon. It was so thick the fliers "could not keep formations of more than two planes," said Capt. Charles B. Miller, Richmond, Va.

Weather Was Bad
"The weather was so bad the Jap air force must have been grounded," added Lt. Ollie A. Thacker, Pear Valley, Tex. No airman reported seeing enemy interceptors and Lt. James B. McWephy, Aurora, Ill., was the only flier in the 314th wing who reported seeing flak. He counted only three bursts.

The raid, which Maj. Gen. Curtis LeMay said may have finished off Osaka's warring potentialities, was acknowledged by Tokyo to have lasted at least an hour.

The first enemy reports also omitted the usual quick claims of B-29s shot down. A later broadcast said the main fires were "in the process of being extinguished."

Okinawa Defense Totters

Japanese Might
Be Crushed in Two
Days or Two Weeks,
Depending on Luck

By Robbin Coons

GUAM, June 15.—(P)—Tenth army forces strove for a quick knockout blow on the supreme command post of the tottering Japanese defense on Okinawa today as signs pointed with increasing certainty to the folding up of the doomed garrison.

Doughboys of the 96th division, supported by flame throwing tanks which seared Japanese cave fronts and hill positions, captured Yaeju peak, the highest promontory of the Yaeju-Dake last ditch defense escarpment, nick-named "Big Apple" by the Yanks.

The hill overlooks the plateau which was the enemy's principal defense ground on the southern line. The capture of the peak may breach as completely the last ditch defenses as the capture of Conical Hill opened up the defenses around Shuri.

Only the advance of the Seventh division, moving in from the east flank to high ground on the left of "Big Apple," remains to set the stage for sweeping the enemy from the plateau and onto the slopes which lead toward the sea.

Hundreds Surrender
Japanese surrenders increased to the hundreds and advancing Americans counted the bodies of scores of others who had committed suicide rather than surrender or retreat again.

Maj. Gen. Pedro Del Valle, commander of the Marine First division which holds Kunishi ridge on the right flank, pointed-out the critical balance of the situation with the comment that the Japanese may be "crushed in two days — or two weeks. It all depends on how lucky we are."

"If we could hit their command, the whole defense might fall to pieces," Del Valle, told Associated Press correspondent Al Dopking. Not long after the general talked with Dopking, 64 Marine Corsair fighters, diving as low as 50 to 100 feet, speared a mine believed to house Japanese headquarters with 19,220 gallons of jellied gasoline and poured 465 rockets into caves where the enemy's top officers were believed quartered.

Great Fire Laid
A sheet of flame quickly covered two acres and smoke was so dense that it obscured some of the attacking planes. It was the greatest fire raid of the Okinawa campaign, now in its 76th day.

Dopking reported that nearly 700 Japanese — mostly laborers — had surrendered and scores were killing themselves. Still others were reported slain by fellow Nipponese as they tried to give up.

Missouri Pacific Busses Tied up

LITTLE ROCK, Ark., June 15.—(P)—Five Missouri Pacific Trailways busses, scheduled for Fort Smith, Memphis and St. Louis, were tied up today when 100 members of shop maintenance crews affiliated with a union of the Brotherhood of Railway trainmen walked out on noon.

George Puska, Little Rock manager of Trailways, said that he had not received any report of union grievances and that all passengers delayed would receive transportation by other means.

Spokesmen for the workers could not be reached immediately as to the cause of the walkout.

Charles Tweedie of Jefferson City Dies
ST. LOUIS, June 15.—(P)—Charles Tweedie, head of the Tweedie Footwear corporation at Jefferson City, died at a hospital here today.

The 71-year-old executive underwent an emergency operation a few days ago and physicians felt he had a good chance for recovery had he lived through today.

Merry-Go-Round

by DREW PEARSON

WASHINGTON, June 15—There is a lot more than meets the eye behind the arrest of two state department officials and one naval officer on a charge of passing out secret documents to magazine writers.

Chief factor behind it is the intense, cut throat rivalry between two Chinese factions — Chiang Kai-Shek's war lords in the south of China and the so-called Chinese Communists (actually an agrarian party) in the north.

Mixed up in all this is the action of the Chinese secret service operating undercover in the USA against anyone opposed to Chiang Kai-Shek. Also involved is the prima donna temperament of a very temperamental U. S. ambassador, and finally the issue of whether the United States will get itself caught between Chinese political factions the same way it has between Polish factions.

It so happens that all three of the young Far Eastern experts arrested in the navy and state department believe ardently that the USA is backing the wrong horse in China. They feel that the northern Chinese government is much more representative of the Chinese people, has done more fighting against Japan and that Chiang Kai-Shek is chiefly an impotent prisoner of his own southern war lords.

Moreover, these three are not alone in this belief. General Stilwell emphatically believed it and was ousted from China as a result. John R. Davies, secretary of the American embassy, also believed it and was ousted by Ambassador Patrick J. Hurley after a bitter verbal battle. Also, John Service, another secretary of embassy, believed it, was fired out of China by Hurley and has now been arrested by the state department.

Finally, U. S. military men, solely concerned with winning the war quickly, feel that the northern Chinese can be a vitally important factor in defeating Japan on the vast mainland of China.

Cowboy vs. Farmer
It was this question which led to one of the most spectacular feuds in the recent annals of American diplomacy between hands-on Ambassador Hurley, the ex-Oklahoma oil man and cowpuncher, and hard-hitting Gen. Al Wedemeyer, former Nebraska farm boy, now U. S. commander in Chungking. Nothing much like it could happen any place but in China — unless it be in Washington.

When General Wedemeyer first arrived in Chungking, he and Hurley appeared to be excellent friends. They took adjoining rooms in a big Chinese mansion,

What Maketh the Borneo Wild Man Wild?

with a connecting bathroom. Three times a day they ate together. Wedemeyer told Hurley he would show him all his dispatches to Washington if Hurley would do the same. Hurley promised and complete cooperation seemed assured.

"I don't know anything about the fine points of diplomacy," General Wedemeyer said, "but I do know a square-shooter when I see one and I am sure we can work together."

Some time thereafter, Wedemeyer was inspecting the Chinese front at Kunming when he got an urgent message from his chief of staff asking him to return to Chungking. He advised Wedemeyer that a hot cable awaited him from Chief of Staff Marshall in Washington "for Wedemeyer's eyes only."

White House Heat
Wedemeyer raced back to Chungking, was flabbergasted to read a blistering cable from General Marshall bawling him out for letting members of his staff sabotage the ambassador's important diplomatic mission in China.

Marshall also enclosed a copy of a cable the ambassador had sent the White House, accusing Wedemeyer's officers of double crossing him.

Wedemeyer immediately went to Hurley and demanded an explanation. He wanted to know what the ambassador meant and why he hadn't carried out his promise to show him all telegrams and cooperate completely. Hurley turned his back.

"I am the ambassador here," he replied and walked away.

General Wedemeyer then discovered that General William Donovan, head of strategic services, was due in China and his representatives had been anxious to determine the possibilities of working with the northern Chinese against Japan. Therefore, Wedemeyer's chief of staff, Gen. Robert B. McClure, had agreed to send two U. S. officers to north China to examine north Chinese cooperation.

While they were away, Foreign Minister T. V. Soong complained to Hurley about their trip. He said this was upsetting Chungking's relation with the north Chinese. Whereupon Hurley sent a

stinging cable to President Roosevelt accusing Wedemeyer's officers of undercutting him. This was what caused Wedemeyer to get the rebuke from General Marshall.

However, Wedemeyer replied to Marshall explaining the whole situation and stating that Hurley knew in advance about the northern trip of the two U. S. officers. Marshall took the cable to the White House. Roosevelt read it, sighed wearily.

"Pat is Pat," he said, "and there is nothing you can do about him."

End of Housekeeping

Amusing aftermath in Chungking was that Ambassador Hurley and General Wedemeyer, the two top Americans in China, occupying the same house and an adjoining bathroom, refused to speak to each other. Day after day they dodged each other in their common dining room. Finally, on the fourth day, Hurley came down to breakfast, told Wedemeyer how sad he was, and begged him to let bygones be bygones. "President Roosevelt told me that my job was to kill Japs out here, not American diplomats," replied the general. "I will still play ball if you will."

Shortly thereafter, however, the two men broke up joint housekeeping and moved to separate homes. At about the same time, General McClure, Wedemeyer's chief of staff, encountered Hurley at a cocktail party and chided him for sending his telegram of protest without prior consultation.

"You ———," roared the ex-cowpuncher from Oklahoma, "I've shot men for less than that."

Fists went up. McClure is no small man. Neither is Hurley. But before anything further happened, friends intervened. However, Chinese were present and saw these two high ranking Americans in a near fist fight. It didn't help American prestige.

It was about this time also that embassy advisers John Davies and John Service, the latter now arrested were ordered out of Chungking by Hurley. He said he did

not want anyone around who sided with the northern Chinese. Since then the rift between north and south China has become wider and wider; with the result that Russia probably will officially recognize the north Chinese, leaving the USA with another Lublin-London Polish dispute on its hands.

This has been one of the hottest debates among junior officers inside the state department. Top officials, however, are dead set against discussion.

Three Burn To Death In Collision

COLUMBIA, Mo., June 15—(P)—Three persons burned to death Thursday in the flames that swept their truck after a collision on the U. S. Highway 63 bridge ten miles north of here. A six-year-old boy who ran to the scene was bitten by a copperhead snake.

Gasoline from one of the trucks, a fuel transport, fed the flames that engulfed the wreckage.

The state patrol listed those burned to death as:

Mrs. Nellie Johnessee, 37, of Joplin; Dick Jamison, 22, of Falls City, Neb., who was riding with Mrs. Johnessee in one truck, and John R. Terrell of Macon, Mo., driver of the gasoline transport.

Gerald Nichols will recover from the poisonous snake bite, a physician who treated him said, after the boy was given first aid by a patrolman and sent here to a hospital.

William Johnessee, 44, who was driving his car immediately in front of the truck his wife was operating, told a state patrolman his car and the transport truck brushed lightly as they met on the bridge. He told the officer he did not stop immediately but got past the bridge approach before looking around. Then, he said, he saw both trucks blazing.

Firemen from Columbia put out the fire but the wreckage of the two trucks blocked the highway for several hours. No serious damage was done to the steel bridge.

WE FLEW Without GUNS

This is a true story of the men who fly the "hump"—carrying passengers and cargo over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

CHECK FLIGHT

CHINA National's airport at Dinjan, in Upper Assam, India, had been cut out of thick jungle. It was square-shaped, about one thousand yards long on each side, and it lay deep in the valley of the Brahmaputra River.

In addition to C. N. A. C.'s transport equipment the field accommodated planes and pilots of the Royal Air Force. Surrounding the field for miles in every direction was thick, impenetrable jungle, its green-black monotony as seen from the air broken only occasionally by brownish patches of rice paddies and neatly cultivated tea plantations.

The usual procedure was to send new men out on the regular trans-Himalayan flights as soon as possible after they arrived. Gingiss, Skippy Lane and I, for instance, made our first trips over the hump within three days after en our own maps, including "strip" sections about a foot wide and three feet long covering only the terrain over which we would fly in crossing the hump. The maps and strips included much territory that had never been charted or surveyed, so on each of those early flights we would mark them as we went along, noting valleys and river bends and mountain peaks—giving them names when they had none, or adopting new ones when the formal ones were too hard to remember or pronounce. Thus the Nam Kiu River, running a twisted course down from lower Tibet to where it joined the Nmai River in Upper Burma, became

the Red River, because it had a reddish color when seen from the air. The Nmai looked silvery-white, so it was the White River. The Salween, third in line as we flew east from Dinjan, patriotically assumed a bluish hue and became the Blue River; and the Lantsang Kiang, largest of them all and muddy as the Ganges, we called the Brown River.

Copyright, 1945, J. C. Winston Co.; Distributed NEA SERVICE, INC.

THERE was little regularity as to how long a pilot had to fly the route before being checked out as a qualified C. N. A. C. flight captain. Some of the boys spent two or three months as co-pilots, others only two or three weeks. Even among the pilots who came to C. N. A. C. from the Flying Tigers after the American Volunteer Group was disbanded, there were several who spent a long time proving their ability to take a ship across the Himalayas entirely on their own. There were good reasons for this, because the

Tigers were combat pilots; they were used to light, fast, single-engine planes; their previous training had taught them how to attack, to fight, to strafe—to always be on the offensive. And now they were jockeying flying freight cars; slow, cumbersome, DC-3's and C-47's; and their instructions were to run for cover whenever they saw a Zero. That was hard to take for some of those lads, but those who didn't catch on pretty fast were never heard from again.

There were a number of factors that contributed to my passing the final flight check after seven trips "over the hump." In the first place, I had my instrument rating and was not only able to fly blind but liked doing it; secondly, I had a thorough background in navigation; and thirdly, my year in England with the A. T. A. had taught me how to fly in almost

any kind of weather, to always be on the watch for enemy planes, and to always think first of my crew and passengers, then of the plane, and only after that of heroes. On that seventh day I went up with Captain Woods, the chief pilot at Dinjan, and he put me through all my paces. Flying at a thousand feet we headed due East (90 degrees) for 10 minutes; then East Southeast (110 degrees) for seven minutes; and due South (180 degrees) for three minutes. Then Woods said, "Head me into the station." Looking only at my instruments, seeing nothing of the ground below, I had to figure how far we had traveled, exactly how long it would take to return to the field, and at what angle I would approach it. We headed back, and halfway there Woods said, "Turn to the right 90 degrees." A moment later he said, "Turn to the left 75 degrees." Then, "Take a check on where you are." I told him where we were, and he said, "All right, head me into the station." We came in entirely on instruments and touched the runway exactly as planned. Woods shook my hand before he climbed out of the plane.

Rigid Control On Sugar

WASHINGTON, June 15—(P)—The government Thursday clamped rigid controls on sugar in an effort to insure fairer distribution of available supplies.

Fixed quotas for all government agencies and other users were ordered by the War Food Administration which simultaneously announced that civilians will receive less sugar during the next three months.

WFA said the order was intended "as assurance that the distribution will be consistent with the allocations, made by the WFA to all claimants against the sugar supply."

The order divides among all primary distributors the total quantity of sugar available for distribution and gives each a separate quota for sales to the WFA, government agencies through the army, authorized purchasers and civilians.

The civilian allocation of 1,380,000 tons for July, August and September, was 10,000 tons below the current quarter.

In Yakima, Wash., Chairman Anderson (D-NM) disclosed yesterday that the house food investigating committee hopes sugar supplies can be augmented by Philippine production this year.

Anderson told a food hearing the committee's hopes are based on information of a military nature which he could not announce.

Examine TVA

JEFFERSON CITY, June 15—(P)—A legislative commission will leave St. Louis Sunday on a 12-day jaunt to examine the Tennessee Valley Authority so it can suggest whether a similar authority would benefit the Missouri river basin.

Crippled Saratoga Home After Valiant Battle Record

After fighting through three years and three months without suffering an enemy bomb hit, the luck of the navy aircraft carrier, USS Saratoga, ran out on February 21 in operations at Iwo Jima. Suffering from seven Jap hits, the carrier nevertheless made her way back to Puget Sound navy yard at Bremerton, Wash., under her own power. attack. He entered the hospital May 31.
A native of Mobile, Ala., Sloan spent the greater part of his career as an executive in the Electric Light & Power industry with which he grew up. He was born just a year before Edison opened the world's first central power station in New York City.
Former Head Of Big Companies
At one time, Sloan headed five companies which together comprised the largest electric light and power system in the world, employing 30,000 workers and serving a population of 6,443,000 in an area of nearly 700 square miles.
These were Brooklyn Edison Company, the New York Edison Company, The United Electric Light & Power Company, The New York and Queens Electric Light & Power Company, and The Yonkers Electric Light and Power Company.
It was not until the early 30's that Sloan left the light and power field to become head of M-K-T and its affiliated roads.
He also was a director of many

Festivities Called Off
DENISON, Tex., June 15.—(P)—Denison, built by the Missouri-Kansas and Texas railroad and this week celebrating the 75th anniversary of its birth with a Katy week Thursday called off festivities upon learning by telegram from St. Louis offices that Matthew S. Sloan, president of the lines, had dropped dead there of a heart attack.

The telegram, said the Denison Herald, was received by Katy officials here.

It said funeral services would be held in Alabama.
Mr. Sloan was in Sedalia about two months ago on a regular inspection trip, F. G. Buchanan, general agent of the Missouri-Kansas-Texas railroad in Sedalia, recalled Thursday night, as he expressed dismay at the sudden passing of the railroad president.

Society Reelects Its Officers

Miss Hetty Green of the state office of the Missouri Tuberculosis association in St. Louis was the principal speaker at a board meeting of the Pettis County Tuberculosis society held Wednesday night at Hotel Bothwell.

Plans for educational health programs and for preventive and remedial work were outlined.

Miss Green and Miss Reba Gum, county health nurse, emphasized that the need is great to maintain a constant fight against tuberculosis and to be prepared to care for soldiers stricken with the disease.

All officers of the county society were reelected at the meeting, with J. L. Rosenthal to continue in a second year as president. Dr. A. L. Walter is vice president; Mrs. Philip Burford, secretary, and C. L. Hanley, treasurer.

The executive committee named is composed of Arthur Hoffman, past president, I. H. Reed, Dr. J. W. Boger, Mrs. J. C. Connor, Mrs. John Murrell, Paul Hedderich, Philip McLaughlin, Miss Dorothy Bacon, Miss Reba Gum, George H. Scruton, Jr., C. F. Scotten, Glen R. Snider, Hughesville; Dewey Houchen, Houstonia, Mrs. H. More Claims On Estate Made

KANSAS CITY, June 15.—(P)—Three more claims totaling \$20,188 were filed Thursday against the estate of the late Thos. J. Pendergast, former Kansas City Democratic leader.

Dan M. Nee, U. S. Collector of Internal Revenue, filed a claim for \$2,188 which he said represented unpaid 1943 individual income tax. On the back of the claim is a waiver of notice on consent for its allowance, signed by Mrs. Carolyn Elizabeth Pendergast, widow and executrix of the estate.

A second claim was by L. C. Johnson, former director of the fire department, and Thomas B. Bash, former sheriff, for a \$15,000 note they said was executed to them by Pendergast Dec. 21, 1933 and past due since July 1, 1939, with interest at six per cent.

The third, for \$3,000, was by Charles C. Ross, son of the late Mike Ross, business partner of

Pendergast. It was for the unpaid balance of a note for \$4,000 executed Jan. 15, 1940.

Sedalian on USS Arkansas

James Burlingame, seaman second class, and David McMillin, seaman first class, of Sedalia were mentioned as being on the deck of the U. S. S. Arkansas in a story by Alvin S. McCoy, Kansas City Star's Pacific war correspondent, in the Star Wednesday evening.

Writing aboard the Arkansas, somewhere in the Western Pacific, McCoy commented that "Lucky Lady" is the term sailors sometimes apply to this battleship, "one of the old-timers of the fleet which has hurled tons of projectiles at both Germans and Japanese. She never has been hit, never even scratched. . . . and her crew is quite hopeful she will keep her record clear," the correspondent declared.

Burlingame's mother, Mrs. Maude Burlingame, resides on Route 2, and McMillin's wife, Mrs. Carmen McMillin lives at 1005 East Fifteenth street.

Still Play at Game of War

These German boys, looking surprisingly well-fed and well-clad, still find war glamorous as they play with an anti-aircraft gun left by the retreating Wehrmacht near Cologne.

Pfc. Artie Jones Writes of The Timberwolves' Battles

Mr. and Mrs. Glen Jones, whose home is at 637 East Thirteenth street, but who are now residing at Portsmouth, Va., have received an interesting letter from Mr. Jones' brother, Pfc. Artie Jones, who made his home with them in Sedalia but who is now in Germany. Pfc. Jones is with the Timberwolves' division. He entered service in the fall of 1942 and has been overseas about a year. The letter in part follows: "Back in December the colonel took another boy and myself up to the front forward observation post. The Heenies shelled us all day. Shells would land on the edge of our foxholes, throwing dirt all over us and shrapnel would go whining every which way. At night it was really spooky; You could hear a whistle and then you ducked. Our own big guns were a comfort as we could see our time bursts and mortars landing on the enemy's positions. They bombed us with planes several times and cellars came in handy. In Indes on the Roer the shells came in so fast that two little goats followed me down the street and ducked in the same building as if they thought I could protect them. I petted them and talked to them. The poor things were shivering with fright."

Had Trouble Finding Boss

ST. LOUIS, June 15—(P)—The Post-Dispatch today quoted Edward W. Paro, one of the vice presidents of Elliott Roosevelt's radio network, as saying "Roosevelt paid me my salary after he borrowed the \$200,000 from John Hartford."

Paro, former advertising salesman for radio station KSD of St. Louis, served as northern representative of the Roosevelt chain, soliciting broadcasting contracts. After five months, the Post-Dispatch says, Paro found that he could not get in touch with his boss long enough to discuss business deals, so he gave up the job.

Hartford, president of the Great Atlantic and Pacific Tea company, has revealed through his attorney that a \$196,000 unpaid balance on the \$200,000 loan to young Roosevelt was written off as a bad debt in 1942.

Rev. C. W. Lower Guest Speaker

The Rev. Cecil W. Lower, son of Mr. and Mrs. R. S. Lower of Hughesville, will occupy the pulpit at the Broadway-Presbyterian church Sunday morning. Mr. Lower is minister and director of the Presbyterian Student Center Foundation, University of Wisconsin, Madison, Wis. He attended Missouri Valley college at Marshall and received his ministerial training at the McCormick Theological Seminary, Chicago. Upon his ordination he became the assistant director of the Presbyterian work at the University of Wisconsin and upon the resignation of Dr. Cameron P. Hall, he was elected director of the student work and pastor of the student church. He will be honored by the Missouri Valley college at commencement exercises next Sunday when that institution will confer upon him the honorary degree of doctor of divinity in recognition of his outstanding work among students in the Wisconsin university.

Rev. Herman M. Janssen, pastor of the Broadway Presbyterian church, will conduct the Sunday morning service at which Mr. Lower will be the guest minister.

Ammunition Explodes
"One night on our drive the Heenies sent shells over right beside our vehicle and exploded an ammunition dump of theirs that they had left behind. Balls of fire and explosions were only twenty-five yards away. It was a spectacular sight but dangerous. I ran to the other side of the road to the cover of a ditch and watched the works."

"My job was to run messages from the battalion message center to the lines. About the only things I had to contend with were shelling and snipers. There were not many snipers, but plenty of shelling, which wasn't good."

"Everytime I started out of the cellar a whine and a high shrill noise would come shrieking out of the darkness to land with a loud boom spattering shrapnel everywhere. It finally got me so jittery that I was afraid to even move. Finally I asked God to help me. I got courage then and walked out, shells or no shells. After that no more came in. That is the reason I am alive today because He pulled me all the way through this war. We were in action for seven straight months, more than any other division has pulled at one time. I am proud of our record, the boys and our outfit. Lots of my buddies are gone now, though."

General Will Share Honors

KANSAS CITY, June 15—(P)—Gen. Dwight D. Eisenhower will divide honors, at his own request, with 25 combat soldiers from Missouri, Kansas and Nebraska when Kansas City pays him tribute next Thursday.

nely prior to taking this position was known as a general utility clerk." Mr. Ilgenfritz said. This position was formerly held by Miss Hazel Hurt, who was practically ordered to leave the office last Tuesday evening by Mr. Rose, after he had learned her position had been terminated in a letter to her on June 7 written by the then chairman of the board, Roy Snyder. Miss Hurt had returned on Wednesday, and on that date was told to remain from the office and that she no longer was to issue ration certificates or enter the files in any way.

Will Mail Certificates
Mr. Ilgenfritz, in checking with Mr. Rose, said that all tire certificates which had been approved by the board and held up the past two days for lack of a clerk, would be in the mails this evening. Mr. Rose also said that all "back log" in the office would be caught up by the last of the week.

Enemy Avoids Finish Fight in Borneo

MANILA, June 15—(P)—Japanese troops abandoned Brunei City and Australians have taken it without a fight, virtually completing conquest of all major objectives in the northwest Borneo invasion, now five days old.

Enemy forces, still avoiding a showdown fight, streamed south in scattered groups toward the Seria and Miri oil fields, but a few hundred Japanese dug in on Labuan island at the northwest entrance to Brunei bay sniped at dismounted cavalry commandos. The commandos were less than half a mile from Timbalai airfield—last initial objectives.

On Education's 'Road Back'

The scene above was typical of many in Aachen when a German teacher, carefully selected by the Allied Military Government, conducted first classes as schools recently re-opened under a program for the re-educating of Germany's youth to democratic principles.

Father's Medal To His Family

Mrs. Doris L. Armstrong of Kansas City, niece of Mrs. T. J. Flessa, 1617 East Broadway, who has frequently visited in Sedalia, and her little daughter, Mary Ann, were principals in a picture which appeared in Thursday evening's Kansas City Star. Below the picture was the following cutline: "Because of a heroic father, a Navy Cross is pinned to the tiny chest of 7-months-old Mary Ann Armstrong. The cross was awarded posthumously to Lieut. John B. Armstrong, Jr., Kansas City, Kan., marine who was killed in action on Saipan island June 16, last year. It was presented to his wife, Mrs. Doris L. Armstrong, 416 East Seventieth street, by Lieut. W. L. Guley in a ceremony at the marine recruiting office in the federal building. The award was for heroic action in the face of Japanese fire July 15 and 16 when Lieut. Armstrong, as executive officer of a battery of field artillery, directed a sustained attack. Lieut. Armstrong was 28 years old and had been a marine eight years. His parents, Mr. and Mrs. John B. Armstrong, live at 2906 North Tenth street, Kansas City, Kansas."

OBITUARIES

Edgar A. Cooper Service
Funeral services for Edgar A. Cooper, who died Wednesday morning, were held at the Ewing funeral home at 2:00 o'clock this afternoon.

The Rev. Ralph Emerson Hurd officiated. Mrs. R. H. Robb and Mrs. F. O. Withers sang, "The Old Rugged Cross" and "There's Power in the Blood," accompanied by Mrs. Mae Moser.

Friends who served as pallbearers were Edward Wisdom, Jack Hunter, John Driscoll, Phillip Perkins, Russell Sims and Cecil Woodard.

Interment was in the Memorial Park cemetery.

Cpl. Rayl Sends Souvenirs from India

Mrs. Wilbur Rayl of La Monte has received souvenirs from her husband, Cpl. Rayl, stationed somewhere in India.

Among them are a picture frame of gun shells, a "snake" candle holder, a hand-carved jewelry chest, a smoking stand, three copper ash trays, various foreign coins and a handmade table cloth.

To his little son, Gene, he sent a pair of sandals and to his mother, Mrs. Edna Rayl, a pillow top.

Changes Position
Curtis C. Myers, who for the past 25 years has been the assistant cashier of the Bank of Ionia, has resigned that position, effective July 1st. He will be associated with his son-in-law, Clarence C. Moore, in the Moore's Hatchery at Ionia.

Traffic Case
A. H. Bratten, 512 West Fifth street, charged with overtime parking, forfeited a one-dollar cash bond in police court this morning.

Lieutenant Sends Steins From Germany

Mr. and Mrs. John D. Johnson, 1505 West Third street, have received a number of souvenirs from their son, Lieut. Arthur Johnson, in the European theatre of war. The most recent were two colorful German steins, the tops indicating they represented used by different ranking German soldiers. Previously he had sent wooden shoes from Holland, handmade lace from Belgium and other articles.

Apostles' Witnessing of the Acts there. "Ye shall be witnesses," said Jesus (Acts 1:8) and the Apostles became witnesses indeed. Church. Scripture: Luke 24:44-48; The Book of Acts of Apostles

By William E. Gilroy, D. D.
The Acts of the Apostles began with the acts of Jesus Christ. The Book that tells how the Christian church began and spread would never have been written, had it not been that the Apostles as early disciples had gone with Jesus as He went about doing good, listening to His teaching, observing His ways of graciousness and love and witnessing His acts of mercy and kindness.

All that Jesus said and did stood out the more clearly in their memory, as He left them with the promise of the Holy Spirit; and in the light of His death and resurrection they understood a great deal that they had never understood before. This understanding, too, brought a new sense of responsibility and devotion. The disputes and quarrels about precedence and preference as to which of them should be the greater, which had continued almost to the very verge of the Cross, were a thing of the past as their minds and hearts were consecrated to the great work of witnessing to all that they had seen and heard.

The Christian church had its beginning, following the work of Christ, in witnessing, and its continuance and strength through the centuries has been in witnessing. The simple process of telling to others the good news that one has heard and of witnessing to the experience that one has found, has been at the heart of all Christian progress. When Christians cease to be witnesses and the church ceases to be a witnessing church, pretension has taken the place of reality; the spirit of Christ is not

there. "Ye shall be witnesses," said Jesus (Acts 1:8) and the Apostles became witnesses indeed. One can hardly overestimate, too, the transformation that took place in the Apostles themselves. It was not simply that they became humble and unselfish and filled with the spirit of service, where formerly they had been self seeking and jealous of power for themselves; they became men of power; but what a different sort of power it was!

"Ye shall receive power," said Jesus, "after that the Holy Ghost is come upon you"; and the reality and effectiveness of the baptism of the Spirit could not more forcefully be displayed than in the quickness and completeness with which a few Galilean fishermen, and peasants, and lowly people, became suddenly transformed into leaders and world builders of the greatest thing on earth.

They found the perfect love that casts out fear. In the depth of their faith they found courage to face persecution and death for their Master's sake, and the more magnificent courage of daring to win the world for Him. When one thinks of the smallness and seeming weakness of that band, in contrast with the vast extent and power of the Roman world, what they attempted and achieved seems miraculous. Even in an outward, historic sense the achievement was amazing for in less period of time than our own American history has consumed the Galilean had conquered and Christianity became the official religion of the Roman Empire.

But it is the inward triumph of Christ over the souls of men that is vital, and the Apostolic achievement goes on and is repeated wherever and whenever the Apostolic conditions are fulfilled. Jesus still leads on!

Vacation Days

Respite from the routine of work, relaxation and play, the chance to see new places, make new acquaintances—these are things to look forward to when vacation time comes around. Vacations are necessary for mind and body. They are a tonic to frayed nerves, refreshment to tired bodies. They are good also for the soul.

Vacation days should be filled with quiet and wholesome enjoyment. There are some, however, who try to cram so much excitement and pleasure into vacations that they return more exhausted and overwrought than before. Others err more grievously because they forget that no matter where they go, God cannot be "left behind." It is all too true that these times of brief freedom from care and responsibility can also be days of temptation, of spiritual laxity and danger.

It would be an excellent idea not only to be on guard against moral let-downs, but to make vacations also a kind of spiritual retreat. There can be no better time to get to know our inner selves. In new and pleasant surroundings, with ample time for meditation, we can look deeply into our souls. We can resolve to approach closer to the high ideals of genuine religious living.

In this period of history, when mankind's future happiness and security depend so much upon the development of a high degree of moral and social responsiveness among all individuals, there is a paramount need for personal self-evaluation in preparation for tomorrow's better world. Every American must ponder his part in a re-organized and mutually cooperative society. Leisurely, peaceful vacation hours provide the opportunity for such thought.

Program For Flag Day Is Given At Park

**G. W. Diemer In
Address At Elks
Observance**

Emphasizing freedom, justice and equality as the symbol of the flag, George W. Diemer, president of the Central Missouri State Teachers' College, Warrensburg, addressed over one hundred and fifty people at a flag day service held at Liberty park Thursday evening.

Talking on the subject "One Increasing Purpose," Mr. Diemer pointed out that to have an effective citizenship in the future people must be educated and informed for democracy.

In expressing thoughts about the war and its problems he said very few of the United States' problems will end with the end of the war. There will be many complications and problems such as the race problem and graft he said.

Another idea he left with the

audience was one he had learned from a young Navy Lieutenant. It was that the world will not be able to undertake another war because of modern scientific progress, referring to rocket planes alone.

Sponsoring this annual Flag Day service is the B. P. O. Elks Lodge No. 125, assisted by other civic and patriotic organizations.

The Program
The program which was given at the band shell at Liberty park was as follows:

To the colors and massing of colors—members of band.

CHRISTIAN SCIENCE CHURCHES

"GOD THE PRESERVER OF MAN" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist on Sunday, June 21, 1945.

Golden Text: Psalms 25:21, 22. Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty. I will say of the Lord, He is my refuge and my fortress: my God; in Him will I trust." (Ps. 91:1-2)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The history of Christianity furnishes sublime proofs of the supporting influence and protecting power bestowed on man by his heavenly Father, omnipotent Mind, who gives man faith and understanding whereby to defend himself, not only from temptation, but from human afflictions."

Frank Frisch's Pittsburghers On Rampage

Playing Heads-up Baseball With Plenty Of Timely Hitting

By Joe Hand
Associated Press Sports Writer
Pittsburgh hitting and jittery New York pitching have produced the inevitable result — the Giants have slid from first to third in the National League and the Pirates are roosting on top.
Bill Voiselle's ninth inning phobia, developed since Manager Mel Ott plastered a \$500 fine for not wasting a 2-0 pitch in St. Louis, continues to haunt the young man from Ninety Six, S. C.
It troubled him again yesterday when the talented right-hander failed to hold a one-run lead as Brooklyn clubbed across two scores in the last frame to hand him his fifth successive defeat, 5-4.
Since Voiselle's fine the Giants have copped only two games and

lost 10. From a cushion of 17 games over the .500 mark on May 27, the club has slipped to a 28-21 record in less than three weeks.
Injuries to key men like Phil Weintraub and Nap Keyes have crippled Ott's once-powerful attack but the decline of pitchers Harry Feldman and Andy Hansen on top of Voiselle's failures have been the telling blows.
Frankie Frisch has the Pirates playing dashing heads-up ball and since the Fordham Flash gave the batting order a thorough shakeup June 1, sending third baseman Bob Elliott to right field and Jock Handley at the hot corner as a regular, the Buccos have won 10 of 14 contests.
Little Al Gionfriddo, overlooked in early spring, has turned into a .329 hitter since taking over an outfield job.
Pittsburgh took two from Chicago yesterday to take the league lead. Max Butcher outbowed the Cubs in the first game 5-2, but Rip Sewell had to have help from Xavier Rescigno before the Pirates swept the second 6-5.
Frenchy Bordagaray's pinch two-bagger followed by Ed Stanky's fourth hit saved the day for the Dodgers. The triumph, the sixth straight, moved the Brooks into second spot, only a half step be-

The Phillies who snapped a 16-game losing streak Wednesday shellacked Boston 13-8. Vince Dimaggio with two homers and six RBIs and Jimmy Wadsworth with five runs driven in were the big guns.
Dizzy Trout made the mistake of throwing two home run balls to Vern Stephens, one with a man on, and it cost Detroit a 3-2 loss to St. Louis, clipping the Tigers' American league lead to a half game.
Clem Hausmann handcuffed the Athletics with three singles but it took Leon Culbertson's nine inning triple to give Boston a 1-0 shade. Orval Grove doubled home the winning run for his seventh success and a 4-3 edge for Chicago over Cleveland.
The New York Yankees and Washington in the American and St. Louis and Cincinnati of the National had open dates.

Sports Roundup

By Hugh Fullerton, Jr.
NEW YORK, June 15.—(AP)—Bill Hulse, who has rated as America's fastest outdoor mile before he went into the navy (Gil Dodds was better indoors) hopes to get into shape for the National AAU track championships if he can find a track for workouts near his Norfolk, Va., station. . . . When he was stationed at Jacksonville, Fla., Bill trained on the beach and Dan Ferris suggested that he might adopt the Gunder Haegg routine and run through the woods. . . . Morton Klein, who fights in one of the four round preliminaries at the Garden tonight, is a medical student at NYU and also a capable musician. Even his manager can't understand why Morton wants to be a fighter. . . . Ty Cobb is so enthusiastic about developing kid baseball players that he volunteered to come from Menlo Park, Calif., to New York all for free to coach the west team in the Esquire All-American boys' game in August.
One-Minute Sports Page
Carroll Widdoes, Ohio State grid coach, fired his best-kept golf score of 70 over the University Gray course the other day. He probably would settle for the same figures any Saturday next fall. . . . The Yankees, who haven't had good weather for their Sunday at home this spring, may have to sit back and see old Satch Paige and his Kansas City Monarchs bust their attendance marks this week. . . . "Senator" Jim Devlin, manager of the pro shop for Ed Dudley at the Atlantic City country club, is introducing players at the current Philadelphia Open golf tourney. . . . The senator isn't likely to find any pros running—against him or otherwise. . . . The Yankees, badly in need of outfielders, may have to call up Steve Kuk, who recently reported to Newark, if they can't make a trade before tonight's deadline. . . . Seems to be a choice between a Juk and a Kluck.
Service Dept.
Lt. Joe Betritz, ex-Notre Dame tub thumper, has been assigned to public relations at the Georgia pre-flight school. Joe's first report on the athletic program: "When they pin the muscles on these cadets (they get their wings later) they are either dead or really tough. . . . But don't get me wrong, it is no love match. . . . When a shortstop bobbed an easy grounder in a Marine-Army game somewhere in the Pacific, a leather-lunged soldier responded with: 'How many points has that guy got?'"

Searching for
Alleged Kidnapers

SIKESTON, Mo., June 15—(AP)—State highway patrolmen were scouring this area of southeast

Missouri today for a man tentatively identified as the kidnaper of Mrs. Olen Hilliard of Springfield, Mo., who was released at Kansas City Tuesday. The man, in company with a woman, purchased gasoline at Cape Girardeau and drove off without paying for it.

Lt. John Tandy of the patrol, said the man is believed to be in the vicinity of Sikeston and that a fine-comb search is now in progress.

PLANE SIGNALS

Success of task force operations against the Japs depends almost as much on the efficiency of the landing signal officer as on the flying ability of the combat pilots. The LSO stands on an exposed platform only a few yards from the flight path. When danger threatens, he can leap into a net spread below and behind him. Here are the signals, relayed by semaphore paddles, with which the LSO directs returning pilots. When the pilot sees the semaphore signal for "Roger," he knows his plane is making the proper approach. The moment a plane gets out of position, a correcting signal is given.

Japanese Idea is to Smash U.S.
On the Sea, Then on the Shore

By J. M. Roberts, Jr.
AP Foreign Affairs Analyst

Premier Suzuki of Japan is rejoicing because his people "have come to concern themselves with the fate of the nation." He, says he, never agreed with those who considered the Okinawa fight climactic. He, says he, is going to win a great victory even if there are no Japanese left alive to enjoy it.

In this he can be assured of the utmost in American cooperation. Such as that just promised by generals Arnold and Le May, who are preparing to send Mr. Suzuki and his people two million tons of bombs in the coming year—a rate of bombing seven or eight times greater than that at present.

All the Japanese have to do, says Suzuki, is to smash the American forces at sea, then when they come ashore (presumably after being smashed at sea) smash them again right there, and then after these (presumably smashed) forces have attained the land, smash them again. MacArthur and Nimitz combined could not display a cleaner insight into what it will take to whip the Americans.

Hopeful of Victory
Suzuki proposes to achieve victory with forces "far inferior

to the enemy materially" through a true display of Japanese mettle. One of my associates, to whom I speak only on Tuesdays and Fridays because of his propensity for such remarks, would call that trading mettle for metal.

Do you suppose Suzuki can be hoping to win this war by making us die laughing?

Seriously, it is not a good thing to sneer at or make fun of an enemy even when he talks this way. It leads to overconfidence, which already has cost us dearly at certain points in this war. It leads to such things as the reductions in tank and ammunition production before Germany was whipped. It leads to nations which begin to feel so "superior" that they get themselves into quite untenable positions, as Adolf Hitler might testify.

Actually, Japanese mettle has proved serious, and is likely to be more so in the homeland. One thing is certain. There is no laughing among the boys doing even the small-scale fighting which has occurred so far.

It may be hard to keep from laughing from time to time at Japanese political antics, but even the funniest of their admirals and generals are likely to provide us with some very sober moments.

Fined for Failing to
Answer Grand Jury

WICHITA, Kas., June 13—(AP)—Two Wichitans, Allen Robert Brunch and Rex Markley, were fined and given jail sentences yesterday by U. S. district judge Guy T. Helvering who held them in contempt of court for allegedly failing to answer properly the questions of a federal grand jury.

Brunch, who appeared before the jury twice yesterday, was fined \$1,000 and sentenced to 90 days in jail. Markley, who also has made two appearances, was fined \$500 and sentenced to 90 days.

Army Nurses
On Iwo Jima

IWO JIMA, Friday, June 16—

(AP)—A small group of army nurses arrived recently — the first white women to be stationed on this bloody won volcano island, within 600 miles of Japan.

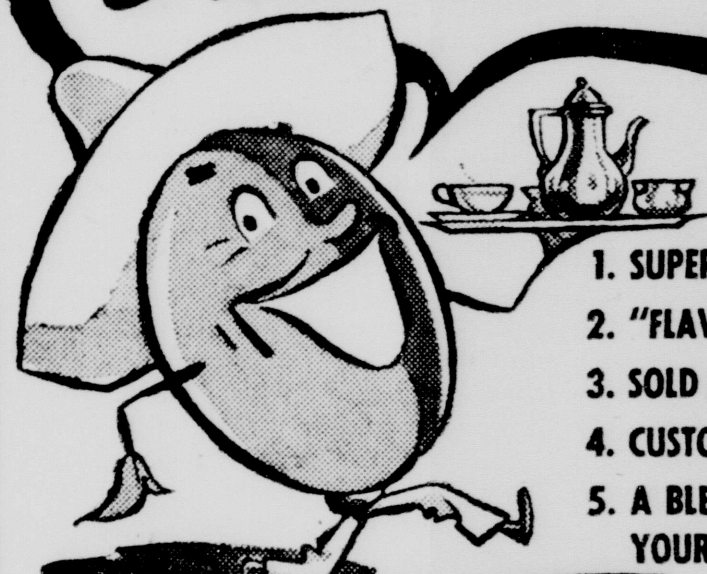

"It is a lot better than we had expected," said Lt. Mary Cupranich of the Bronx, N. Y.

"We were pleasantly surprised to find the Quonset huts provided for living quarters," added Lt. Grace M. Hatch of Andover, Mass.

The site of the hospital is in an area where the Marines battled the Japanese from cave to cave while conquering the island. Lt. Col. Donald C. Since, Harrisburg,

Pa., is the hospital commander. Pointing out that the Seabees (construction battalion) levelled off the terrace before the nurses' quarters, Lieutenant Cupranich said, "When we're off duty we can sit there and watch the fighter planes returning from strikes in Japan."

Other nurses in the group include: Lt. Ada E. Boone, Springfield, Mo.
